TherapyWorks is a web-based application that provides the information necessary to increase the profitability and clinical quality of physical, hand, occupational and speech therapy services by tracking and reporting metrics that provide therapists and managers with real time information on individual and group productivity with benchmark comparisons to similar practices and tested tools for improvement.

TherapyWorks gives each therapist and manager virtually instant access to the following information:

- **Dashboard gauges showing individual provider and group comparisons to state or nationwide benchmarks for:**
  - Procedures/provider hour
  - Procedures/visit
  - wRVUs/provider hour
  - wRVUs/visit
  - Visits/day/provider
  - Payments/procedure
  - Payments/visit
  - Initial evaluation show rate
  - Follow-up visit show rate
- **YTD Tracking showing month-by-month procedures, visits, charges and payments by provider, location, discipline or entire group**
- **Comparison to prior years on a YTD or monthly basis to allow you to easily compare e.g., April 2010 visits to visits in April 2008 and 2009 by provider, location, discipline or entire group**
- **Side-by-side comparison of providers, locations or disciplines**
- **“One click” charting option on all metrics to help spot trends**
- **One tool to give you key benchmarks and management guidance to making improvements where needed**
